New Abbott Library To Open In Late Summer

The steel is up, the walls are framed and by the time you receive this newsletter there will most likely be a roof, complete with skylight. As with all projects, we've hit a few obstacles, but we remain on target and on budget!

Thanks to the outstanding collaborative efforts of the Town of Sunapee, members of the Abbott Library Foundation, the Abbott Library Trustees, Architect Peter Tennant and, of course, the Trumbull-Nelson Construction Company working through this tough winter, our new library is slated to open late this summer.

Recently, the stone for the foundation, the roof tiles, and vinyl siding colors were selected with nature's landscape in mind. Soon, carpeting and other fixtures will be finalized. It will be a beautiful building and a gem in our

community. While we reached our fundraising goal to build the library, it is never too late to continue supporting future library projects!

New Abbott Library Foundation Member
Why did you choose to live in Sunapee? I grew up in New London and love the area! Also, my wife and I were looking to move out of Boston area and I now live about 8 minutes from the ski area which is an added benefit!

Anna Miner

New Abbott Library Foundation Member
What are you up to currently? My husband and I recently moved to the area full-time and are proud owners of the Morgan Hill Bookstore!

Our Library

A library is a cherished place for children and adults alike to gather and be whisked away on adventures.

For me, the new Abbott Library symbolizes our community's dreams, discoveries, and pursuit of knowledge.

My name is Jean Molloy and I have been entrusted to make sure that the New Abbott Library will serve those intentions for our community. As a resident of the Sunapee area for almost 35 years and a member of our extended business community, it is imperative for me to see that our children, grandchildren and future generations to come have an opportunity to participate and enjoy the new Abbott library.

We are so proud to have met our initial fundraising target and are so appreciative for all of your support. We ask however, that you continue to support our endeavors whether it be through an annual gift, naming opportunity for a friend or family member or by going to our website www.AbbottLibraryFoundation.org and clicking on the "Donation" tab.

As you are aware, the construction is underway and I am pleased to be able to say that through a generous donation we just added radiant floor heating to the underground work. However, we need to raise an additional \$15,000 for the controls to fully complete this project and it would be a tremendous help to raise the funds while the process is underway. We are doing our best to make this the best library possible and hope that you will join our efforts. We look forward to seeing you at our Site Visit on Saturday, May 31st. We will send you more information about this event as the date approaches.

The Abbott Library relies on the generosity of supporters like you. We are indebted to you for your donations and hope that you will continue to support this vital piece of our community.

Jean Molloy

BE A PART OF
SUNAPEE'S
FUTURE

We invite you to visit our new Library on **Saturday, May 31st** during our Site Visit from 1:30-3:30.

You can follow the progress of the building by looking at the construction photos posted on the library website. Go to www.AbbottLibrary.org and go to the tab marked, "New Library"
